# APM Branch - 2022 to the future

APM Scotland Branch deliver a programme of activities aligned to the APM Strategy. Using the competencies from the APM Competence Framework as a guide, our CPD events programme aims to be diverse, inclusive and of interest to the full spectrum of our membership.

Where we can we focus our events on experience and lessons from key projects of Scottish interest, or where feedback from members has requested a specific topic be presented.

We work closely with our Corporate Partners, Members, Affiliates and Higher Education Institutions to ensure we understand their needs and how we can work together for the benefit of all of our members and the wider project profession within Scotland.

We continue to run annual competitions, including Project Challenge, to provide development opportunities for newcomers to the profession.

Our membership is widely dispersed, stretching across the length and breadth of Scotland. Our principal concentration of members is focused on the principal cities of Edinburgh, Glasgow & Aberdeen and are drawn from a diverse background.

Our challenge is to meet the professional project, programme & portfolio management needs of this diverse and geographically distributed population.

We have been growing and now have over 1600 individual members across the membership grades. We also have over 50 Corporates with head offices in Scotland, and some 360 plus based outside Scotland with one or more offices in Scotland.

To provide ample coverage branch activities are led by a network of action groups focusing on either a region or a specific activity.

Why not join us at one of our events and find out more about the branch? Alternatively use the link below to get in touch and one of the team will contact you.

Don't forget to follow us on Twitter (@APM\_Scot) to get the latest updates on what's happening within the branch and beyond.
